

FAULKNER HOSPITAL
Brigham and Women's Health Care

FREE SKIN CANCER SCREENING

Free Skin Cancer Screening

Thursday, May 20, 2010; 5 - 7 pm

Faulkner Hospital, 5th Floor, Suite 5990

The best defense against skin cancer is a good offense, and early detection is the best weapon in the fight against skin cancer. Some of the symptoms that are common in the development of skin cancer include a new growth on the skin, a change in an existing growth and a sore that does not heal. When treated early, most skin cancers can be successfully treated and cured.

Dermatologist Dr. Eva Balash will be the doctor doing the screening.

Pre-registration is required. For more information or to schedule an appointment, contact Stacey in Faulkner Hospital's Community Health Department at 617-983-7907.
